How to use the Program if you are a cardholder of World Debit Mastercard of UBB?

Check Lounge availability

Before the start of your trip, use the LoungeKey website or mobile app to find available lounges and the special offers they have for you. For this purpose, register with your card's 16-digit number at:
<https://www.loungekey.com/en/ubb-world/>

Verification and validation

At the airport, go to your chosen business lounge and mention that you are client of the LoungeKey program. The Lounge Staff will process and verify your card before granting access. Keep your valid boarding pass and passport on hand.

Guest confirmation

Most lounges allow guests to enter with you as the fee for their visit is charged on your card. Be sure to use the LoungeKey website/mobile app to check for any restrictions for guests at the chosen business lounge.

Lounge admission

After your card is processed and verified, you and your guests will be invited into the lounge.

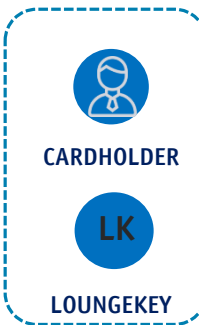

Payment

The payment of EUR 28 per person is charged as a card not present transaction within 3 working days after your visit.

Visits history

You can track your lounge visits by logging into your account on the website or the LoungeKey mobile app
